# WELCOME TO HI-TECH ENGINEERING & CONTRACTOR

Hi-Tech Engineering & Contractor was established in the year 2007 as a manufacturer of Perforation Sheet. With our vision and hard work, we have not only built a product but a company of like-minded people where we work towards the same goal of customer satisfaction. We not only supply simple perforated sheets but with enhanced capabilities; we breathe life into perforated sheets, which is now being used worldwide for many reasons. From more than a decade, we have grown from a regional manufacturer into a global engineering solutions provider.

## HI-TECH ENGINEERING specializes in the following domain:

- Perforated Metal Sheets & Tubings
- Power Pressed Components
- Sheet Metal Fabrication

## WHY CHOOSE US

We at Hi-Tech believe in overall customer satisfaction with strong focus on "QCDS"

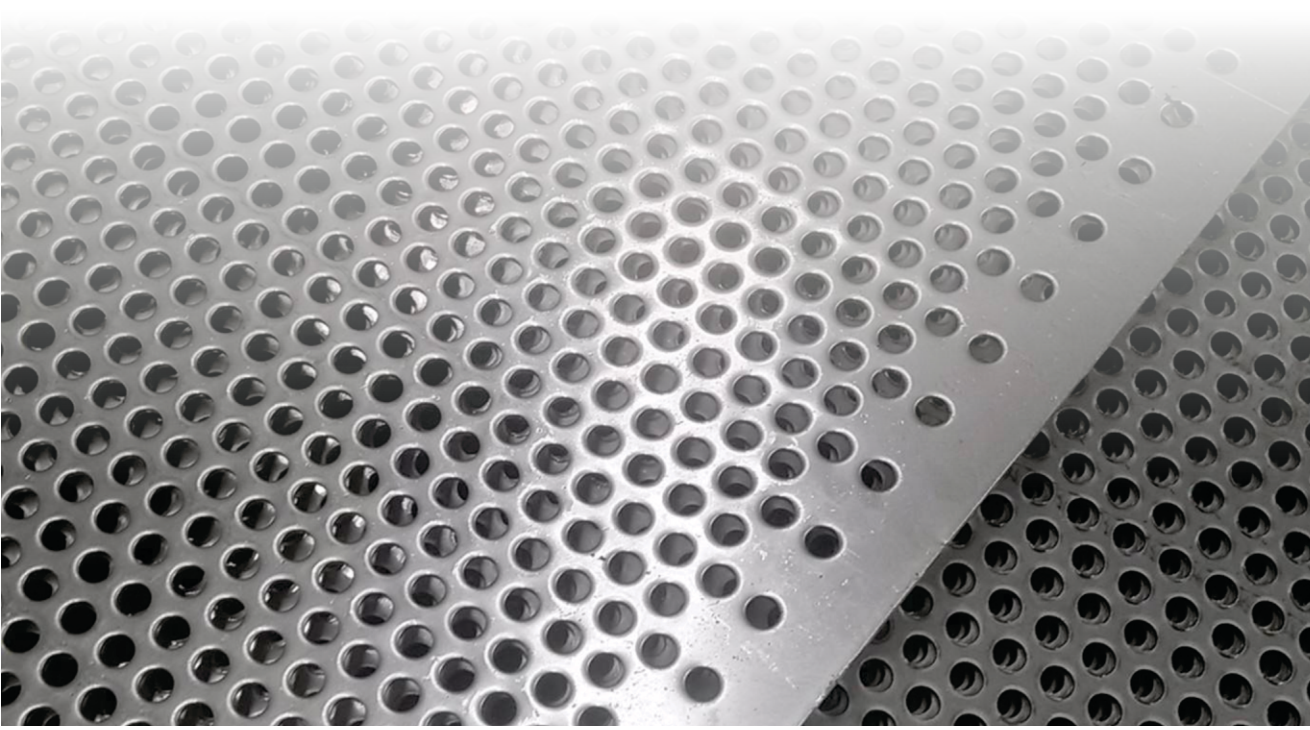

- Q** - Excellent Quality
- C** - Optimum Cost
- D** - Prompt Delivery
- S** - Excellent Service

## PROVEN TECHNOLOGY

The company is well equipped with all the latest machinery and equipments.

## WELL QUALIFIED TEAM

We have a highly accountable team that helps in matching with the needs of the customers. We are planning to expand our team in order to sustain our growing business.

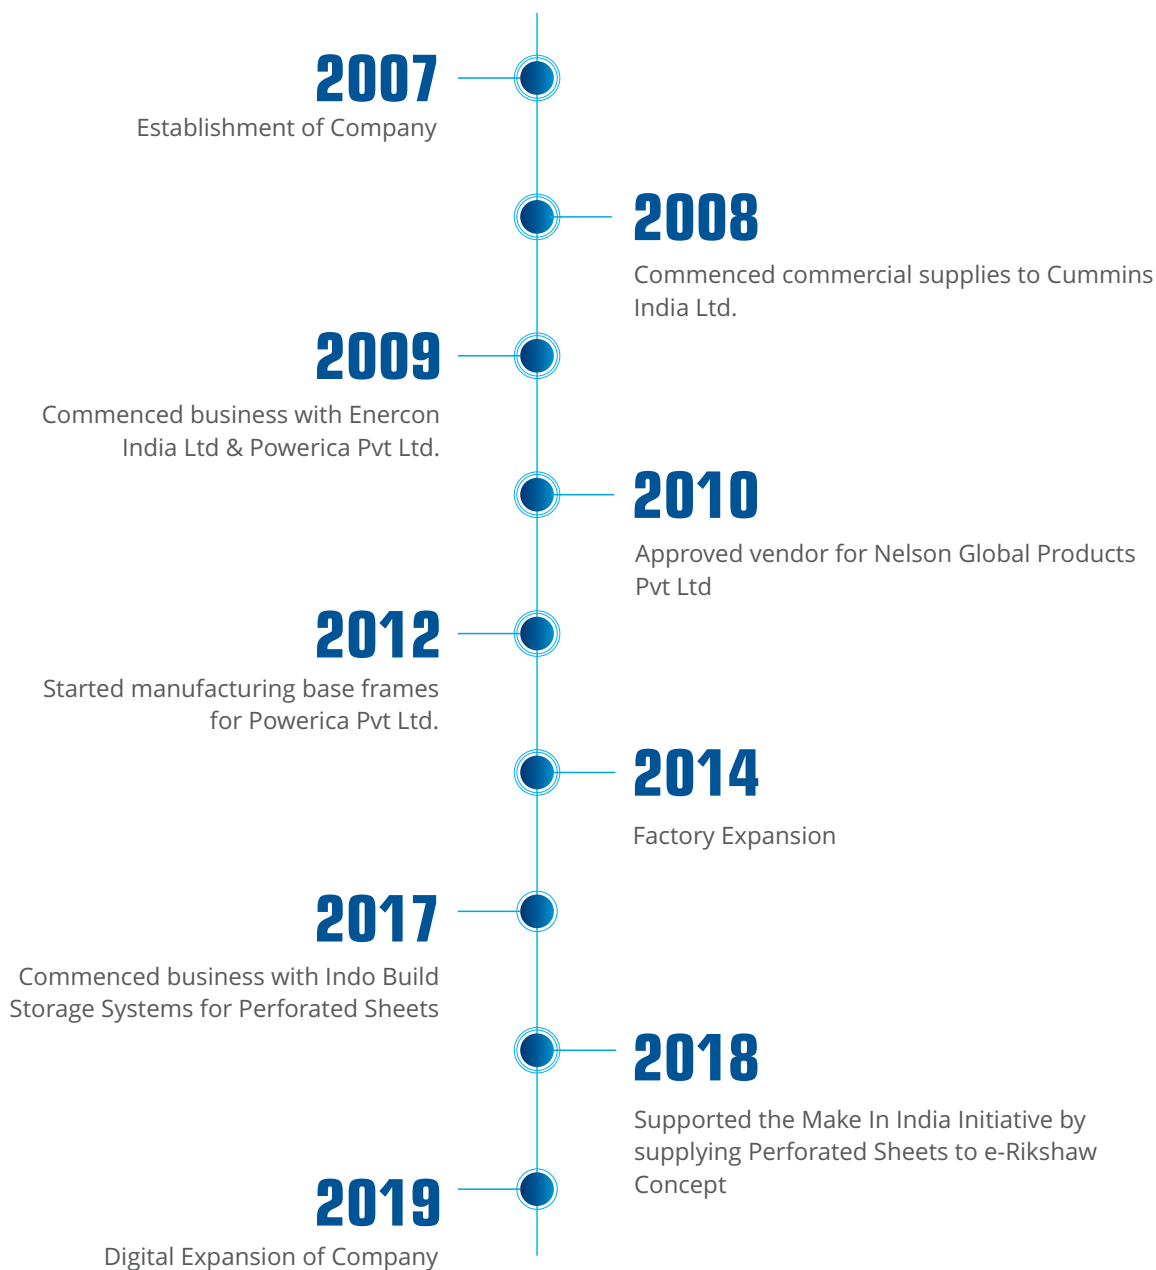

## ABOUT COMPANY

## WHY CHOOSE US

We have evolved from a Canopy – Generator Covering, Generator base frame to a fully functional Perforation Sheet Manufacturer. We provide customized perforated sheet solution and are determined to deliver it the way our customer wants.

## COMPANY TIMELINE

## OUR SPECIALITIES

**HI-TECH**  
ENGINEERING & CONTRACTOR

### PERFORATED SHEETS

We manufacture Perforated Sheets in different patterns and sizes. The most reliable source for many kind of perforated products which are directly or indirectly used by all sectors of industry like automobile, chemicals, petrochemicals, pharma, food processing, power, construction, architectural, furniture, etc. We supply the sheet as per the required specification of customers. We manufacture this sheet by employing excellent quality raw material and contemporary technology with the international industry standards.

### APPLICATIONS

Automobile Industry

Construction & Interior Decoration Industry

Filter manufacturing Industry

Electrical & Air Conditioning Industry

Furniture & Hospitality Industry

Power Generation / Generator Manufacturers

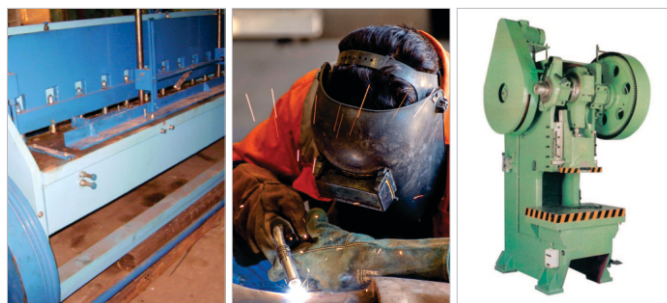

### POWER PRESSED COMPONENTS

We also specialize in pressed components like – flanges, hanger, baffle end cap, muffler flange, flat flange, baffle flange, & miscellaneous automobile parts. Moreover we also manufacture components for Elevator Industry.

### SHEET METAL FABRICATION

We also expertise in sheet metal fabrication activities like – shearing, bending, rolling and welding. With our team of skilled professionals, we can meet varying demands of customers.
